

# FBT SIMPLIFIER

A SINGLE PROCESS, MULTIPLE OUTPUTS

THOMSON REUTERS

# TAKE COMPLEXITY OUT OF FBT COMPLIANCE AND REPORTING

Thomson Reuters' FBT compliance solution delivers value beyond the FBT return. With a user-friendly and logical approach, it allows you to prepare your FBT returns and reportable fringe benefit information accurately and efficiently from beginning to end.

The new generation FBTsimplifier helps you fulfill your FBT compliance and reporting obligations with the ability to easily handle large volumes of data and quickly respond to employee queries whilst also relying on advanced integrity and reporting features.

FBTsimplifier is used for preparing FBT returns and compiling RFBA data by well over 1,000 corporations, government departments, charities and hospitals, as well as by 3 of the Big 4 accounting firms in Australia. To find out why visit [thomsonreuters.com.au/taxsolutions](http://thomsonreuters.com.au/taxsolutions) for an obligation free demonstration.
